Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed the possibility of removal of the final action mailed 11/14/06. The Examiner commented that since the prior art still read on the independent claims, the final action would be maintained. The Examiner suggested that the incorporation of dependent Claim 43 into the independent claims would make all Claims allowable, as set fourth in the final rejection. The Examiner noted that all of Applicant's amended claims were considered in formulating the final action. .
